

KALYANI MALI

kalyanikmali@gmail.com | (+91) 8080004856

SKILLS

- **Programming Languages & Technologies** : Java, Python(Basic), JavaScript, HTML, CSS
- **Frameworks** : React.js, Express.js, Node.js, Spring Boot, Tailwind CSS
- **Databases** : MySQL, MongoDB
- **Dev Tools and Platforms** : Postman, Docker, Git, GitHub, IntelliJ IDEA / Eclipse
- **Core Concepts** : OOP, Data Structures & Algorithms, Testing, Deployment, CI/CD, Agile Development, RESTful APIs

EDUCATION

- **R. C. Patel Institute of Technology, Shirpur** **2025**
B.Tech in Computer Engineering **CGPA - 8.15**
- **Government Polytechnic Nashik** **2022**
Diploma in Information Technology **88.88%**

EXPERIENCE

- **Java Developer Intern | R3 Systems India Pvt Ltd, Nashik** **Feb 2024 - Mar 2024**
Completed a hands-on internship in Spring Framework and Spring Boot, gaining practical experience with RESTful APIs, JPA, Hibernate, Actuators, and core concepts like ORM, dependency injection, and MVC through a full-stack project.
- **Full Stack Developer Intern | Numetry Technologies, Pune** **Jan 2025 - June 2025**
Collaborated with development teams on real-world projects using the MERN stack, contributing to both frontend and backend features. Demonstrated strong teamwork and punctuality by consistently meeting deadlines, actively participating in discussions, and delivering stable builds for deployment.

ACADEMIC PROJECTS

- **SmartRecipe | React.js, Spring Boot, MongoDB**
Built a web application with features to fetch, search, and filter recipes by name, ingredients, and diet using external APIs, integrated AI for personalized suggestions, and implemented JWT-based authentication with ORM for database operations.
- **Resumeify | MERN Stack**
Collaborated on building a high-performance resume and cover letter builder with 60+ customizable templates, role-based JWT authentication, and a seamless UI/UX experience.
- **Shopify | MERN Stack**
Developed a full-fledged e-commerce application using the MERN stack with JWT authentication, product fetching via external APIs, add-to-cart and wishlist features, billing system, and implemented React Router and Redux for efficient state and route management

CERTIFICATES AND ACHIEVEMENTS

- **Completed Java Certification** through Zensar's Skill Development Program, gaining strong foundational knowledge in core Java concepts
- **Shortlisted in college-level hackathons**, showcasing problem-solving skills, teamwork, and rapid development under time constraints.
